3500 lbs 4000 lbs

4500 lbs 5000 lbs

_____ lbs

Contact Name:

2. Cab Construction:

Please circle one:

Wood Metal Frame (Skeleton)

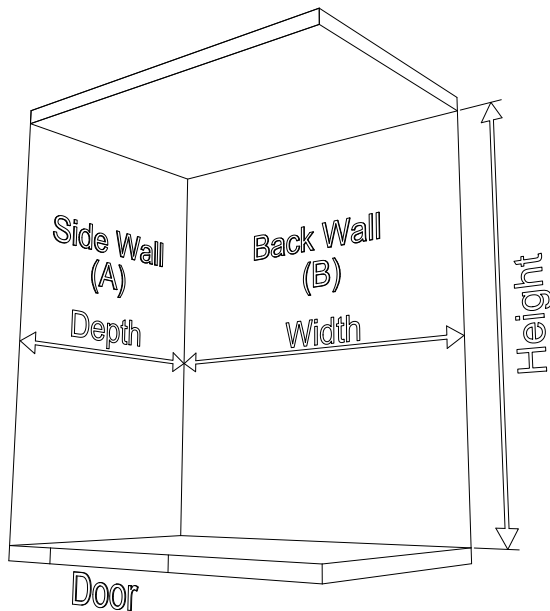

4. Cab Floor Plan:

Please circle one:

5. Cab Dimensions:

Please fill out section completely

Enter all dimensions in inches, not feet.

Cab Depth A _____"

Shell to Shell

Cab Height A _____"

Height is measured from floor to canopy (not ceiling).

Cab Width B _____"

Shell to Shell

Cab Height B _____"

Height is measured from floor to canopy (not ceiling).

If cab has a cove/obstruction, please measure wall height from floor to bottom of cove/obstruction. Remember to measure from bottom of cove to canopy for your ceiling drop.

Please draw, diagram at left, the detail of cove present in the cab.
